Power BI Charts

🔑 Common Columns in Superstore

- 📂 **Categorical (Axis / Legend)**
  Category, Sub-Category, Segment, Region, State, Ship Mode
- 🔢 **Numerical (Values)**
  Sales, Profit, Quantity, Discount

1️⃣ 📊 Stacked Column Chart

🎯 Objective

👉 Compare **multiple categories + contribution (parts of total)**

🧭 Axis Selection

- **X-axis (Categorical)** → Category / Region
- **Y-axis (Numerical)** → Sales / Profit
- **Legend (Categorical)** → Segment / Sub-Category

📌 Examples

✅ Example 1

- X-axis → Category
- Y-axis → Sales
- Legend → Segment

👉 Shows: Which segment contributes more sales in each category

✅ Example 2

- X-axis → Region
- Y-axis → Profit
- Legend → Category

👉 Shows: Profit distribution across regions

2️⃣ 🥧 Pie Chart

🎯 Objective

👉 Show **percentage contribution of parts to whole**

🧭 Axis Selection

- **Legend (Categorical)** → Category / Segment
- **Values (Numerical)** → Sales / Profit

📌 Examples

✅ Example 1

- Legend → Category
- Values → Sales

👉 Shows: Category-wise sales share

✅ Example 2

- Legend → Segment
- Values → Profit

👉 Shows: Segment-wise profit share

3️⃣ 📈 Line Chart

🎯 Objective

👉 Show **trend over time**

🧭 Axis Selection

- **X-axis (Time)** → Order Date
- **Y-axis (Numerical)** → Sales / Profit

📌 Examples

✅ Example 1

- X-axis → Month

- Y-axis → Sales

👉 Shows: Monthly sales trend

✅ Example 2

- X-axis → Year
- Y-axis → Profit

👉 Shows: Yearly profit trend

4️⃣ 🍩 Donut Chart

🎯 Objective

👉 Show **proportion (better visual than pie)**

🧭 Axis Selection

- **Legend (Categorical)** → Region / Category
- **Values (Numerical)** → Sales / Quantity

📌 Examples

✅ Example 1

- Legend → Region
- Values → Sales

👉 Shows: Region-wise sales share

✅ Example 2

- Legend → Category
- Values → Quantity

👉 Shows: Quantity distribution

5️⃣ 🔻 Funnel Chart

🎯 Objective

👉 Show **stages or top-down filtering**

🧭 Axis Selection

- **Category** → Category / Sub-Category
- **Values** → Sales / Quantity

📌 Examples

✅ Example 1

- Category → Category
- Values → Sales

👉 Shows: Top categories by sales

✅ Example 2

- Category → Sub-Category
- Values → Quantity

👉 Shows: Most sold sub-categories

6️⃣ 📟 KPI Card

🎯 Objective

👉 Show **single important metric**

🧭 Fields

- **Indicator** → Sales / Profit
- **Trend Axis** → Date

📌 Examples

✅ Example 1

- Indicator → Total Sales

👉 Shows: Overall sales

✅ Example 2

- Indicator → Profit
- Trend → Date

👉 Shows: Profit performance

7️⃣ 🎀 Ribbon Chart

🎯 Objective

👉 Show **ranking changes over time**

🧭 Axis Selection

- **X-axis** → Date
- **Y-axis** → Sales / Profit
- **Legend** → Category / Region

📌 Examples

✅ Example 1

- X-axis → Year
- Y-axis → Sales
- Legend → Category

👉 Shows: Top category each year

✅ Example 2

- X-axis → Month
- Y-axis → Profit
- Legend → Region

👉 Shows: Region ranking over time

8️⃣ 🌳 Tree Map

🎯 Objective

👉 Show **hierarchical data with size comparison**

🧭 Fields

- **Category** → Category / Sub-Category
- **Values** → Sales / Profit

📌 Examples

✅ Example 1

- Category → Category
- Values → Sales

👉 Shows: Category contribution size

✅ Example 2

- Category → Sub-Category
- Values → Profit

👉 Shows: Profit distribution

9️⃣ 🗺️ Map Chart

🎯 Objective

👉 Show **geographical data**

🧭 Fields

- **Location** → State / City / Region
- **Values** → Sales / Profit

📌 Examples

✅ Example 1

- Location → State
- Values → Sales

👉 Shows: Sales by state

✅ Example 2

- Location → Region
- Values → Profit

👉 Shows: Profit by region

🔟 🎛️ Filter / Slicer

🎯 Objective

👉 Allow **interactive filtering**

🧭 Fields

- Use any categorical column
  (Category, Region, Segment)

📌 Examples

✅ Example 1

- Slicer → Region

👉 Filters all visuals by region

✅ Example 2

- Slicer → Category

👉 Filters dashboard by category

1️⃣1️⃣ 📊 Clustered Column Chart

🎯 Objective

👉 Compare **categories side-by-side**

🧭 Axis Selection

- X-axis → Category
- Y-axis → Sales / Profit

📌 Examples

✅ Example 1

- Category vs Sales

👉 Compare sales across categories

✅ Example 2

- Region vs Profit

👉 Compare profit across regions

🎯 How to Choose Chart

❓ Question Type	📊 Chart

cation | Map | | Apply filtering | Slicer |

🧠 Teaching Steps

👉 Step 1: Identify question
👉 Step 2: Find categorical column
👉 Step 3: Find numerical column
👉 Step 4: Choose correct chart

✨ This guide helps students **understand + apply + choose charts based on questions**
